Local Museum Renovation

The High Plains Museum Coalition has created a plan to revamp their permanent gallery this year to help tell our history in a more historically chronological order. Professional recommendations have included replacing the old paneling with drywall that will extend to the ceiling and a new exhibit design. The new exhibit design will allow us to highlight our claim to fame – America’s First Patented Helicopter – even more and allow us to tell more Sherman County stories by getting out more of our artifacts. The new design will create designated spaces that will become rotating exhibits, allowing new stories to be told on a schedule. The High Plains Museum Board has been involved with the design process from the beginning and fully supports this project.

The Local Area I Work Force Development Board exists to connect employers to a

motivated workforce having skills to obtain and maintain meaningful employment throughout its 62-county community. Explore the jobs, resumes and training programs in your area at ksworkforceone.org or feel free to call **785-890-2422**.

PREVENT COLDS & FLU

Because of the increased risk for flu, gastrointestinal and respiratory illness at this time of the year, we ask that you take precautions to prevent the spread of germs.
